INFORMATION - 2006

ROADS MAGAZINE

THE MAGAZINE FOR THE ROAD MANAGEMENT AND ROAD CONSTRUCTION INDUSTRY

With roads and road construction playing such a pivotal and powerful role in the national economy, it's timely that this multi-billion dollar industry now has its own specialist and focused publication, Roads magazine.

The importance of road infrastructure and construction to Australia is reflected in the scale of governments' investment in that infrastructure over the years, and more recent investment by the private sector. The Federal Government's latest roads initiative has sent a strong signal as to the industry's significance.

The total replacement value of Australia's 810,000 km of roads is estimated to be \$100 bn, with new investment being in the order of \$7 billion annually. Considering the magnitude and value of the asset, it is not surprising that it is a major employer. An estimated 120,000 people are involved in all facets of road construction, management, maintenance and policy in Australia.

Roads magazine brings together the key decision makers whose judgements and expertise are at the core of this large industry.

Roads magazine is committed to enhancing communication between industry and government sectors, expanding the circulation of news on industry events, issues, technologies and initiatives.

Each edition has a comprehensive news roundup, informed comment and coverage of technical features on road design and construction, project reports, updates on environmental issues, coverage of management and contracting issues, and news of recent product releases. It will be an indispensable read for everyone in Australia's roads industry, from the policy makers and designers to the constructors and maintenance crews.

Roads magazine is published six times a year: February, April, June, August, October, December.

CIRCULATION: 5000-plus copies are distributed to all local governments in Australia, materials suppliers, contractors, policy decision-makers in the Federal and State Governments, engineering consultants and other technical specialists.

EDITORIAL CONTENT

Each edition of Roads magazine incorporates the following sections:

News

A roundup of what's happening around the country:

- Government roads programs
- Local Government activities
- Upcoming projects
- Research and new product news
- New equipment and industry news
- Safety issues

Technical

A section devoted specifically to the latest technical aspects of road construction, including:

- Road design - alignments and pavements
- Geotechnical analysis
- Construction
 - pavement recycling
 - stabilisation
 - crushing & screening
 - compaction & testing methods
 - wearing courses
- Road maintenance
- Road safety

Traffic Management and Safety

- traffic controls
- traffic calming
- signage
- line marking
- lighting
- traffic surveillance

Project Report

A feature on a construction project, highlighting the specific difficulties of the project and how they were overcome.

Environment

- stormwater management
- sediment control
- stabilisation
- drainage and barrier fences
- landscaping
- Preparation of environmental business plans
- Onsite environmental issues and how to tackle them
- Project reports

Management/Policy

Coverage of the latest issues of concern in management.

- Planning considerations and route selection
- Quality control in construction
- Developments in codes of practice and standards
- Industry training
- Workplace safety
- Legal issues and finance

New Products

An update on new products relating to roads planning, design, construction and maintenance.

MATERIAL

Artwork can be provided on disk or a high resolution pdf can be emailed (Adobe Acrobat 5, 6 or 7). It should be (colourised) for Apple Macintosh Quark Express, version 6.5 or earlier. Images should be in Photoshop version 9 or earlier. Illustrator images should be saved for version 12 or earlier (please ensure that images placed in Illustrator files are embedded rather than linked). EPS and TIFF formatted files should be moded as CMYK (not RGB). Please ensure that all screen and printer fonts are included as well as any EPS or TIFF files. A proof of the ad (preferably colour) should be included. We can accept the following media: ZIP 100mb discs or CD ROMs. Printing instructions should be clearly indicated.

FEATURES FOR 2006

FEBRUARY ISSUE

- Bridges
 - Subgrade Preparation
 - Road & Pavement Maintenance
- EQUIPMENT REVIEW: Compactors

APRIL ISSUE

- Traffic Control & Management (calming, surveillance & signage)
 - ITS (intelligent transport systems)
 - Line & Road Marking
 - Excavators, Hammers & Attachments
- EQUIPMENT REVIEW: Pavers & Profilers

JUNE ISSUE

- Asphalt Technology Feature
 - Survey Gear
 - Road & Workzone Safety & Safety Barrier Systems
 - Stormwater & Erosion Control (silt screens & barrier fences)
- EQUIPMENT REVIEW: Dozers, Loaders & Graders

AUGUST ISSUE

- Subgrade Preparation (geotextiles)
 - Bridges
 - Line & Road Marking
 - ITS (intelligent transport systems)
- EQUIPMENT REVIEW: Pavers & Profilers

OCTOBER ISSUE

- Survey Gear
 - Environmental Dimensions (erosion control)
 - Traffic Control & Management (calming surveillance & signage)
 - Road Asset Management/ Design Software
 - Road Building Equipment
- EQUIPMENT REVIEW: Compaction

DECEMBER ISSUE

- Line & Road Marking
 - ITS
 - Safety Barrier Systems
 - Pavement & Asphalt Recycling
- EQUIPMENT REVIEW: Hydraulic Excavators, Hammers & Attachments
